1. HOW TO ORDER

After turning on the software, use the touchscreen controls to navigate to the appropriate menu you would like to access. Currently, we offer: Breakfast, Lunch, and Dinner. Please select one.

Once you have selected the appropriate menu, the following screen will appear.

From here, you can tap the drop-down box to view the list of entrees that are available. If you have selected the wrong menu, press the “Back” button to move to the previous screen.

2. [VIEWING PLACED ORDERS.](#)

When you have selected a meal, an image and information about the meal, including price, will appear on the screen.

After you have selected meal you would like, the description and price of the food item will appear on the screen.

Pressing the “Done” button in the top right will show a confirmation page of the order that you have placed with total price of the order included with tax.

Foodude will request if you are confirming your order. Please select YES or NO.

3. [NEEDING ADDITIONAL ASSISTANCE](#)

At any moment you need assistance, press the “Need Waitress” button. A waitress will come to your assigned table in order to assist you.
